“NO JOB IS TOO BIG OR TOO SMALL”

We at Innovative Earthmoving pride ourselves on our diversified services catering to our clients requirements. We have spent a number of years working on sites that have high safety requirements and all our equipment is to mine specification so will pass site inspections.

We are happy to quote jobs on lump sum or on hourly hire.

Our vacuum excavation and earthmoving has over 20 years' experience in the industry.

Please call today for a competitive quote for your requirements. We hire and rent excavation trailers & trucks either dry hire or wet hire.

Vacuum excavation is the safest way of identifying utilities without the risk of danger to services.

We have up to 80 tonne excavators with rock breakers and an assortment of buckets, we have experienced operators or we dry hire.

Our D5N bulldozer is perfect for the smaller clearing jobs in tighter areas, and the 6 way blade is good for contours if the job is larger, we have a D7R and D10R

Innovative Earthmoving Pty Ltd also operates the Innovative Truck Hire business who dry hire and rent trucks to the construction and mining industries Australia wide.

Innovative Truck Hire are unique in that we hire trucks and equipment that other companies don't, often due to complexity of the trucks.

Innovative Truck Hire specializes in fleet hire for projects where the client requires a number of trucks for their projects.

We wet hire and dry hire Australia wide with depots in Port Hedland and Melbourne.

Our wet hire services we offer in the greater Melbourne area and country Victoria And the Pilbara region of Western Australia.

SITE REHABILITATION

The rehabilitation sites of sites following construction, demolition, utilities or general earthworks is a crucial step toward project completion.

Innovative Earthmoving Pty Ltd are able to assist you with your site rehabilitation requirements including, but not limited to:

- ✓ Post construction site cleanup and rehabilitation of residential / commercial or industrial building sites.
- ✓ Demolition site clean-up and rehabilitation.
- ✓ Removal of coarse soil condiments (i.e rocks, brick, concrete, building waste and rubble, timber, vegetation).
- ✓ Post excavation rehabilitation i.e leveling of ground, final trim and seedbed preparation following trenching or cut and fill operations.
- ✓ Repair of eroded ground.
- ✓ Removal of existing vegetation (grass, turf, weeds) and establishment of a seedbed for direct seeding or turfing.
- ✓ Clean up post land clearing (removal of remaining vegetation / timber waste and levelling of land)
- ✓ Top soiling of sites post development or earthworks.
- ✓ Repair of roadside batters

ROCK BREAKING

We have 20-30 tonne excavators with Montabert V2500 hydraulic breakers these are suitable for the largest rock breaking jobs.

We also dry hire our Hammers by themselves.

The excavators are available for wet or dry hire.

VACCUUM EXCAVATION

We offer wet & dry hire of our vacuum excavation equipment with the Vermeer units our vacuum excavators of choice.

We hire the V250 vacuum excavation trailer for the smaller jobs with a 900 litre spoil tank to our V1200 vacuum with 4000 litre spoil tanks.

We offer this service in The Greater Melbourne Area & Country Victoria.

THE VERMEER HYDRO VACUUM

The Vermeer V250 Vacuum Excavation Trailer is an excellent cost-effective piece of machinery to be used in potholing and service location applications. With using water or pressurized air, it will dig holes in no time. The collection tank is used to vacuum the loose soil.

The Vermeer V250 Hydro Vacuum is offered as Wet or Dry Hire.

CALL NOW FOR A COMPETITIVE QUOTE
